

File Edit View Run Kernel Settings Help

         Code 

```
[1]: random_numbers = [10, 23, 7, 42, 15]
     print("Random numbers list:", random_numbers)
```

```
Random numbers list: [10, 23, 7, 42, 15]
```

```
[2]: random_numbers.extend([8, 11, 30])
     print("Updated list:", random_numbers)
```

```
Updated list: [10, 23, 7, 42, 15, 8, 11, 30]
```

```
[3]: print("Elements in the list:")
     for num in random_numbers:
         print(num)
```

```
Elements in the list:
```

```
10
```

```
23
```

```
7
```

```
42
```

```
15
```

```
8
```

```
11
```

```
30
```
